# Creating a Crab IFQ Report

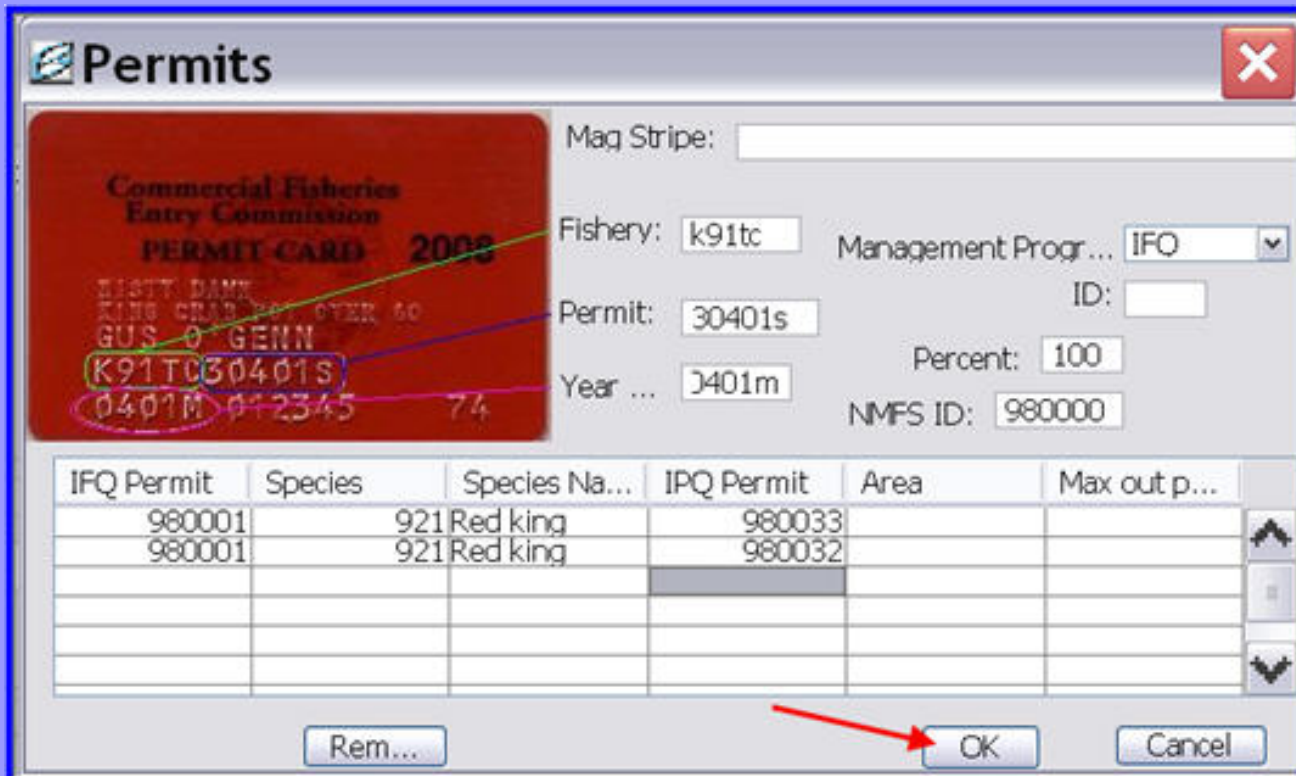

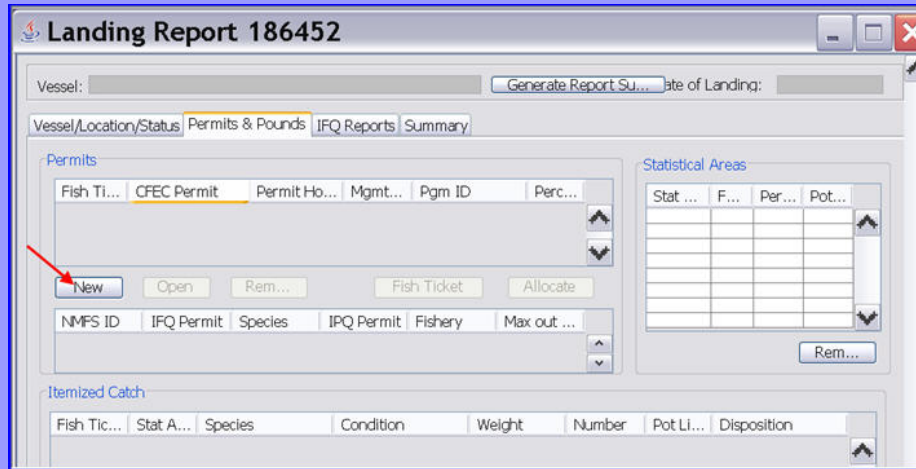

A dialog box titled "New Report" with a close button (X) in the top right corner. It contains two dropdown menus: "Operation:" set to "NMFS Test Dutch Harbor Plant" and "Type of Report:" set to "Crab Landing". At the bottom, there are "OK" and "Cancel" buttons. A red arrow points to the "OK" button.

A main application window titled "Landing Report 186452" with standard window controls (minimize, maximize, close) in the top right. The window has a "Vessel:" field with a red arrow pointing to it, and a "Generate Report Su..." button. Below this is a tabbed interface with tabs for "Vessel/Location/Status", "Permits & Pounds", "IFQ Reports", and "Summary". The "Vessel/Location/Status" tab is active and contains several sections:

This page contains links that explain how to download and transmit data using the stand-alone client, also called seaLandings. This software is used by crews that do not have internet capabilities on their vessels and transmit their data via email. The ability to email and receive attachments is necessary to use this software.
