

# eLandings Report - Manually Landed IFQ halibut

## Manually Landed IFQ Report

If you have to do an IFQ manual landing, you are still required to submit a final landing report in eLandings. You will need to check the IFQ Reported Manually checkbox prior to submitting your amended IFQ pounds.

DO NOT generate the IFQ report.

## Scenario

A longline vessel with multiple permit holders landed and reported 10,000 lbs of halibut on 01/18/2021 at The Pisces Plant in Cordova. Percentage pounds were not entered, so the system split the catch 50/50 between permit holders.

IFQ reports were generated and submitted shortly afterwards but then the permit holders realized their allocation mistake. The plant had to call the NMFS data technicians to manually land the 10,000 lbs of condition 05 halibut according to the desired weight allocations of the permit holders.

Due to the nature of this kind of training exercise, once one landing report has been accessed, it can no longer be used. For that reason, I have the following landing reports that are available: 376274, 376275, 376296

- Scroll down "Search for Reports" and enter one of the aforementioned landing IDs Report ID field (376274, 376275, or 376296) under the Search for Reports section.
- Scroll down to the bottom of the page and click on the Search button.
- You will get an Information message at the top of the page telling you that a landing report was found.

## Reports Menu

INFO - 1607: 1 landing report found that matches search criteria

Scroll down the page a little and you will see the landing Report ID in blue text. Click on this link and it will take you to the landing report.

2	E22 263189		200 Halibut	04 Gutted	4,500 I/S	60	Sold	4,410					\$	\$

Originally, the catch was split 50/50 between the two permit holders so the pounds on the itemized catch lines must be edited.

The permit holder with Fish Ticket E20 262802 wanted to allocate 5,200 lbs on his permit with the remaining pounds going on the second Fish Ticket E20 262803.

Make the necessary edits and then click on the Save button.
