

Every fall the eLandings team travels to Seattle to conduct workshops and meet with processors. These workshops provide an opportunity to review the latest updates to our eLandings applications: eLandings Web, seaLandings, and tLandings. This edition of the eLandings newsletter, FishWire, will focus on upcoming training events.

CONTENTS

seaLandings Workshop.	1
tLandings for Salmon and Groundfish Workshop.....	1
eFISH	2

Layout provided by the Alaska Department of Fish and Game. ADF&G administers all programs and activities in compliance with state and federal civil rights and equal opportunity laws. Obtain the full ADF&G and Americans with Disabilities Act and Office of Equal Opportunity statement online at www.adfg.state.ak.us or from the ADF&G Public Communications Section at 907-465-6166. <http://www.adfg.state.ak.us/oeostate.php>

seaLandings Workshop

- November 15, 2016, 9:30 a.m.–12:30 p.m.
- International Pacific Halibut Commission office, 2320 W. Commodore Way, Seattle
- Parking is available free of charge.

NMFS staff will be conducting the annual seaLandings Workshop in Seattle. 2017 seaLandings software CDs will be distributed at the workshop in addition to providing users with a demo of the 2018 elogbook. For more information contact Suja.Hall@noaa.gov or call (907) 586-7462.

tLandings for Salmon and Groundfish Workshop

- November 16, 2016, 9:30 a.m.–3:00 p.m. (For processors using tLandings for groundfish, we will continue the workshop for an additional 30 minutes.)
Silver Cloud Hotel, Lake Union, 1150 Fairview Avenue North, Seattle
- Parking is available free of charge.

At the close of each season the eLandings team evaluates the tLandings application in an effort to simplify use while maintaining a stable reporting system. Processor and agency staff contact us requesting additional data collection and the team reviews issues that require user support assistance.

Modifications to tLandings to simplify reporting began in 2016 with the change in tender user accounts and logins. For 2017, we are restructuring tender vessel operations as well as redesigning the tLandings application to harvest both the permit and the vessel information from the CFEC permit card. This will eliminate the need for vessel lists and should speed the reporting process.

To better understand these significant changes to the tLandings application, we highly recommend you attend the tLandings workshop as the application will be changing significantly in 2017. These changes will be reviewed at the workshop and we hope that you and your staff will make every effort to attend.

Topics that will be reviewed include the following:

- Tender operations and user account management
- Review of new application features and enhancements
- Revisions to the tLandings reporting process
- Efficient data correction practices
- Regulation changes at ADF&G and NMFS as it relates to tLandings for groundfish
- eLandings integrated COAR reporting
- Web resources
- Review procedures to append setnet site fish ticket when multiple landings occur

The agenda for the tLandings for Salmon and Groundfish Workshop is available [HERE](#).

eFISH

eFISH is a web application that provides NMFS permit holders with access to their account information. There are a variety of different user categories and actions that can be taken dependent upon the type(s) of permits associated with each account.

eFISH is also home to the *Registered Buyer* report where IFQ fisher's submit their halibut and sablefish landings. This is used by catcher sellers that don't deliver to shoreside processing plants. Documentation on eFISH can be found [HERE](#).

- IFQ permit holders can view their account balances, run landing ledger reports, print permits, or update their account information.
- Registered Buyer permit holders can renew their permits, submit exvessel volume reports, and pay Observer fees.

IFQ	Processor	Payments
IFQ Permit Holder/Hired Master Resources		
IFQ Balance	Displays IFQ account balances by area for the current fishing year. Select a permit if you wish to display balances for one permit only: <input type="text" value="Optional Permit#"/>	
Landing Ledger	Displays a landing ledger report for a selected IFQ permit for the selected fishing year.	
Landed Pounds/Value	Displays a summary of landed pounds and value by species for the selected fishing year. (May be accepted by CFEC for use in determining that Agency's permit fees.)	
Quota Share Holdings	Displays a report of quota share holdings.	
Print Permits	Print Annual Permits.	
Registered Buyer Resources		
Report a Landing	Allows you to submit a landing report for the selected Registered Buyer permit.	
Buyer Landing Ledger	Displays a landing ledger report for a selected Registered Buyer permit for the selected fishing year.	
Reprint Receipt	Allows you to reprint a landing receipt, entered using one of your Registered Buyer permits.	
Renew Buyer Permit	Renew permit for selected Registered Buyer.	
Annual Report	Make an Ex-Vessel Volume and Value Report by month for the selected Registered Buyer.	

- CDQ groups can view IFQ and IPQ account balances, check use caps, run landing ledger reports, display vessel caps, print annual permits, transfer psc/psq, exchange flatfish, and pay cost recovery and observer fees.

IFQ/IPQ Permit Holder/Hired Master Resources		
Display IFQ/IPQ Balance	Displays IFQ or IPQ account balances by fishery for the current fishing year. Select a permit if you wish to display balances for one IFQ/IPQ permit only: <input type="text" value="Optional Permit#"/>	
Display Landing Ledger	Displays a landing ledger report for a selected IFQ or IPQ permit for the selected crab fishing year.	
Display Quota Share Holdings	Displays a report of quota share (QS) holdings.	
Check Use Caps	Check QS/PQS and IFQ/IPQ Use Caps.	
Print Permits	Print Annual Permits.	
Vessel Resources		
Vessel Balances	Displays vessel balance by fishery for the current fishing year.	

- CDQ, A80, AFA, and Rockfish program cooperatives can display account balances, submit transfers, and pay cost recovery fees.

The eFISH application can be accessed by following the link below and entering the user's NMFS ID and password: <https://alaskafisheries.noaa.gov/webapps/efish/login>

CDQ Groups, Amendment 80, AFA, and Rockfish Program Cooperatives		
Display Account Balance	Display account balances for the current fishing year.	
Display Account Detail	Display an account detail report for the current year.	
CDQ and/or PSQ Transfers	Transfer CDQ and/or PSC/PSQ.	
Flatfish Exchange	Exchange Flatfish.	
CDQ Small Vessel Exchange	Transfer quota to the Exempted PSC Small Vessel Fisheries.	
CDQ Small Vessel Registration	Register Vessels Eligible for LLP Exemption.
